

STUDYING ABOUT THE ALIEN'S NATURE ON THE ABSTRACT OF THE MALANGA BOOK 'ALIENS & DEMONS'.

§ 1 – AN ESSENTIAL 'HANDBOOK' ON THE MORPHOLOGY OF ALIENS based on the works of Corrado Malanga.

A FIRST SYNTHESIS: THE LEVELS AND THE POWERS OF THE ALIENS ALLIANCE

The our work is based on the Abstracts of the book 'Alieni e Demoni' of Corrado Malanga. In English the title is 'Aliens & Demons' and we read some paragraphs about the 'alien's nature'. The first paragraph, that we will examine, discusses the nature of aliens interferences and divides up the different alien races and their different groups of power. The Paragraph which now we describe, we called:

NATURE OF ALIENS INTERFERENCES

Corrado Malanga describes five levels of A.I. (Aliens Interference), and that levels divide up a 'pyramid of order': in the pyramid of alien's order the races of aliens are subdivided by their 'piece' of the 'full-plain' of their original future's vision. The Full-plain is determined by the creatures that live beyond the five level. In the Level Five life the creature called: Lux, because these creature haven't the body and their essence is a matter like the fluorescence.

1ST LEVEL OF ALIEN'S INTERFERENCE FIRST GROUP OF POWER

Blond Mammalian

This group is compounded by mammalian creatures, called 'Mammalianoid', these creatures are taller than the human race (2,50 m.), and they have the white hair, six finger, and the skin white as snow.

These creature live in an universe's dimension, where the physic and material body's existence not is conceived, and their bodies like the 'dresses'. This 'dress' are conceived by Mammalianoid for to come in our physical dimension, because their can't live down the physical laws of the human world.

Mammalianoid are on their uniform an pendent that are like a star double triangle.

THE SECOND GROUP OF POWER

The Orange

Also the Creatures of this group are Mammalianoid, but their hair is darker than the hair of the first group, and not like the M. of 1st group, the creatures of 2nd group have five finger, and an lengthened

skull. Their uniforms are close-fitting blues and up have a symbol like two plaited triangles. These creatures are called by authors: 'Orange'.

The Oranges come from the stars of Tauro, and also called 'Taurians'.

Their 'bit' of the Full-plains are the plain of the complete human genetic's map, and the abduction are determined by the order of the Oranges.

THE THIRD GROUP OF POWER

Monoculos

The aliens of the 3rd group are ancienter than the creatures of group 1 and 2, are very tall, and they have on the close-fitting dark uniforms. The abductees tell they see directly these creatures never, but they tell to perceive their presence as though the creatures been behind a shield. The rare descriptions about this 'hidden' Alien, tell that is very tall (2,80-3 metres) and he has the shoulder blades thickness bone that remind two wings of we. This Alien has the rounded and white eyes, and the peak-appendix is in the male under the chin, an 'eye' is on the middle forehead, and this 'middle eye' can be the 'very' eye of the alien.

The 'monoculos' are not present on the Earth, but they coordinate their subordinates races with the telepathy and move themselves with the telekinesis's power.

THE FOURTH GROUP OF POWER

In this group are the aliens called 'sauroids'. Two are the kinds of these aliens.

The Drake....

The 1st kind is composed with the reptilian creatures, that are tall 2,00 or 2,20 metres, and five fingers are on their two hands, and a claw is on the middle arm, as the finger of the back leg of the cat.

The skin of the alien is very hard as the crocodile's skin and the color is green-brown. Spinal column of this alien goes all over the back, and forms the tail that is large and thick and muscular. The tail supports the alien when the alien is standing.

The fingers of the hands and the feet are palmated.

The aspect of these aliens is like the 'drake', isn't the external ear on the skull, and vertical pupil is in the eye as the eye of the snakes.

and the Frog...

The 2nd kind of these aliens is composed with the 'sauroids' taller 2 metres, the tail isn't in these aliens, and the skin of these creatures is almost transparent. The eye is round and the look is fixed, as the eye of the amphibian animals: this alien called 'the Frog'.

The 'Frog's' uniform is like the Nazi uniform.

THE FIFTH GROUP OF POWER

The Mantis

The bodies of the creatures that live in 5th group remind the body of an insect, and we call this Alien: 'Insectoid'. The Insectoid are as a terrestrial insect, the mantis, and like the mantis is stading on two legs.

A tiny head with a small mouth and eyes large and blacks, are the principals elements of the 'mantis'.

This the five group of power that to be coordinated in the LEVEL ONE of Alien's Interference. But the question is : What does the alien in the first level?

Malanga wrote, he wrote, according to his experience, that these groups deal with the direct handling of humanity through the insertion of microchips.

In the next chapter we tell this through the experiences of direct contact between man and alien, that Malanga wrote in his books...
