

STUDYING ABOUT THE ALIEN'S NATURE ON THE ABSTRACT OF THE MALANGA BOOK 'ALIENS & DEMONS'

§ 2 – The research of Alien's Nation: The Immortal Soul of First Men. FIRSTH MAN AND THE GENESIS: The Two Creations of The Original Coscience.

AN INTRODUCTION

We saw the essential elements of the aliens morphologies in the first Level of A.I. . These creatures that operate in this level have in common a plan: to manipulation of the man. How do these aliens to work for their common plan? All the creatures of First Level are part of a global project, and each of five races, that we described in the 1st paragraph, work for a part of this plan, as if it were in a factory and as if it worked in assembly line.

For example, the Oranges, the 2nd group of the power in the AI 1st level, operate on the human DNA, and their research is aimed at completing the human genetic map. Now we know part of plan, but we must ask: *why the aliens are working for the adulteration of the human dna and his complete map? What is most important in the human dna than others creatures?*

So, the particular element, that is in the human dna, differentiate the our race by rest of the creatures. The Alien's people search this element by many year, since the 'Year of the Creation' was made by 'god'.

THE GOD AND THE PROJET

Corrado Malanga wrote about the judaic-cristian Genesis :

“...and if the Word was not a language in the truest sense of the word, but a gene's language , as someone assume? And if some ancient and ignorant human being had seen symbols and if someone had said that the those symbols were the language of the human being, that poor shepherd would have interpreted this information as if those symbols were the language the Creator delivered to humans. Would banal Treaty of genetic code with which the man was make OF TRUE OF VERBO. He would have taken a decidedly meaning the legend that a god, whatever it was, had created man with the Word: he had created with the DNA. (...)”

(by: Corrado Malanga, in: WE DO MAN A OUR IMAGE)

So, now we think that the origin of man is connected to a process 'creative' work by aliens, or a particular race of aliens most in high than the rest of the AI levels: The Creator, The God.

The secret plan was written by ancient greats aliens in ancient years of human's prehistory and now the 'Levels' are working to complete this project.

But so, yet isn't the answer at the question: Why the Project exists?

So, we now talk about an experience of Malanga with the ipnosys. In the chapter of the book *Aliens & Demons*, titled: *Kind Alien Interference in a deep hypnosis sessions*, Malanga describe his meeting with an Alien's Memory of a alien race called 'lux'.

During the hypnosis session, this Alien speak with Malanga about his point of view on the humans abductions, and when the hypnologist ask his:

" You come into the body of humans?",

and the creature 'lux' answer to him:

" No. I not entry in all bodies, but, only in the body of the human that is owner of <soul>".

Malanga asks again with the question: "Why?"

And the reply of the Lux: *" The aim is our evolution..."*

Malanga to him: "...well..and what earns the human race being?"

The Lux: *"... Knowledge "*

Well, now we see a 'alien's memory' under 'hypnosis session' and we can say that this alien called 'Lux' during his life he search for the human with a particular element, that he named 'Soul'...why? Because the Soul is the most important component for his evolution. The soul is better important than other element that she is defended by the lux to other aliens that, strangely, must to be allied...

The Project is the search for Soul?

Yes, the search of Aliens is to be for the component of soul in the Human's DNA ...

THE PROJÉT OF GOD....

The eternity is one of the oldest elements of divinity for the primitive man. In the lost time the ancient kings of humanity (for exemple the kings of mesopotamy) lived 'for century' in the famous 'list of kings'.

1st dynasty of Kish

the numbers are the years

* Jushur di Kish: 1.200 years

* Kullassina-bel of Kish: 960 years

Nangishlishma di Kish: 670

* En-Tarah-Ana di Kish: 420

• Babum di Kish: 300

* Puannum di Kish: 840

• Kalibum di Kish: 960

- * Kalumum di Kish:
- * Zuqaqip di Kish: 900
- * Atab di Kish: 600
- * Mashda di Kish: 840
- * Arwium di Kish: 720
- * Etana di Kish (3000 a.C. circa), the ,
- that ascended to heaven and consolidated all foreign Countries:1.500
- * Balih di Kish: 400
- * En-Me-Nuna di Kish: 660
- * Melem-Kish di Kish: 900
- * Barsal-Nuna di Kish: 1.200
- * Zamug di Kish: 140
- Tizqar di Kish: 305
- * Ilku di Kish: 900 years (The first king on the list of which the historical existence has been independently certified through archaeological finds.)
- * Iltasadum di Kish: 1.200 anni
- En-Men-Barage-Si di Kish (morto verso il 2680 a.C.), che conquistò Elam: 900
- * Agga di Kish: 625

Then Kish was destroyed and the monarchy was taken by E-ana.

And other examples in the holy bible, are the antediluvians patriarchs. Are described in the Genesis the ten patriarchs by Adam to Noe.

Is recounted that Adam lived, before the death of Abel for 800 years, and that he gave birth to Seth when he is 130 years old.

Genesis 5:3

"And Adam lived an hundred and thirty years, and begat a son in his own likeness, after his image; and called his name Seth:"

Genesis 5:4

"And the days of Adam after he had begotten Seth were eight hundred years: and he begat sons and daughters

In ancient middle east the immortality of the kings or patrarchs was the sign of their 'royal lighting descent from heaven' : as the gods are immortal, so the kings of the human race, a manifestation of divinity, are long.

Well, now we come in the second argoument of this our studing: The Second Level of Alien Interference.

THE SECOND LEVEL OF ALIEN INTERFERENCE AND THE PROJET OF GOD:

IMMORTALITY.

The Closed File and The Password of God

Many exemples of this search of aliens were observed by Corrado Malanga during his studies with sessions of hypnosis. Particularly the 'Blonds' (the firsth group of power) manifested the plan of research for immortality.

In all humans abducted is a foreign memory with a denied access. Malanga worked many years on this problem, and now, after many experiences, that were described by him in the works Alien Cicatrix and Aliens&Demons, he have open this ' mental file'...

In this mysterious and closed file of the Humans Abducted there is all plan of the second levell of AI.

Asking to the aliens memories, was to described by Malanga the 'reality show' in the human brain: aliens pass on themselves through biological grafts of their pleadings in human brains. This graft is the 'occulty files' in the mind of the abducted and the alien, that 'live' in this 'occulty file', is perpetuated from human generation to human generation, and his life as the eternity's substitute. When dies the man , this is to abducted by the aliens and the aliens extract the 'graf' by human body, for to introduce this into a new body in a new human brain... So an alien can to live for many centuries.

And the alien pass himself with the experiences of human bodies that has possessed to new human, this situation is as the 'play' the deceive of the time... but it is a deceive, and the 'the play' is to conducted by the 'gambler' with the innocent and unaware human.

Reading the history of the our species, and of the our ancients gods and knowledge of our ancients sacred scriptures, is the base for to understand the deception of the our species, in this new reading of the ancients events, we see how this deception has been perpetuated over the centuries and generations...
